

# LOCAL WOMEN'S EMPOWERMENT

**LOCAL LASTS LONGER.**

African women are peacemakers, life givers, educators, and entrepreneurs. Despite their crucial roles, they often face challenges due to gender inequality, such as limited education opportunities and a higher likelihood of experiencing violence and sexual exploitation.

Africa Oasis aims to empower women through local educational programs that address these issues, including literacy and micro-enterprise programs, as well as awareness and prevention of sexual exploitation. We believe that by supporting women, we can improve the health and well-being of families and communities, leading to long-term transformation.
