## HOW YOU CAN GO LOCAL

### PARTNER

Imagine the impact as we work together to combat malnutrition and disease, provide resources for health education and access to safe water, all while presenting the Good News of JESUS!

PRAY

Please Pray with us for God to make a way for an increasingly redeemed and transformed Africa.

GIVE

All net proceeds go to designated projects and programs. To give visit: [AFRICA-OASIS.ORG/GIVE](http://AFRICA-OASIS.ORG/GIVE)

GO

Are you interested in serving? We would love to talk to you about all the opportunities.

## AFRICA

A healthy Church within walking  
distance of every African.

# LOCAL LASTS LONGER.

[AFRICA-OASIS.ORG](http://AFRICA-OASIS.ORG)

## COMMITTED TO GO LOCAL

Africa Oasis is committed to community transformation! We partner with more than 80,000 Assemblies of God churches in Africa because we believe in the value, capacity, and significance of the local church. These churches have almost 20 million members, and they are our primary partners in transformation. Our strategies focus on this local church partnership by using local resources to address local challenges because we know that LOCAL LASTS LONGER.

Our work targets five key areas: children at risk, food security, health education, water solutions, and women's empowerment. These are more than projects; they are ministries that flow out of the local church. Our Jesus-centered strategies are sustainable because they focus on awareness & prevention, education, and community empowerment, creating locally led and locally empowered change. This is how Africa Oasis can have a massive compassion footprint on the continent, with long-term impact.

**“Our strategies focus on this local church partnership, using local resources to address local challenges because we know that LOCAL LASTS LONGER.”**

We invite you to “go local” by joining our team as we partner with African churches for community transformation.

Blessings,

**SUZANNE HURST**

DIRECTOR OF AFRICA OASIS

## LOCAL FOOD SECURITY

We want to see healthy well-nourished families. We focus on sustainable agriculture through methods that target small scale farming, family gardens, and composting. This provides fresh produce for families and allows the possibility of selling a portion to increase their income.

## LOCAL CHILDREN AT RISK

Our mission is to provide children with the resources and support they need to overcome challenges they face. Through all 4 of our other focus programs and initiatives, we aim to empower these children to reach their full potential and lead happy, healthy lives.

## LOCAL HEALTH EDUCATION

Africa Oasis is committed to empowerment. We know that knowledge is power, so we incorporate health teaching into every project. Locally contextual teaching combined with practical learning materials aims to provide the tools needed for improved health.

## LOCAL WATER SOLUTIONS

We know that water is life so we are committed to bringing safe drinking water to African communities. From wells to water filters to catchment systems we work to provide access to uncontaminated, life-giving water.

## LOCAL WOMEN'S EMPOWERMENT

Africa Oasis desires to see women thrive. From awareness and prevention of sexual exploitation to literacy programs and micro-enterprise, we come alongside amazing women with local educational programs designed to address the issues they face.
